**UV Clean & Pure™**  
Air Purifier

User Manual

Thank you for purchasing the Zaahn UV Clean & Pure Air Purifier!  
For proper use, please read this entire User Manual carefully before use and keep it on hand for future reference.

## Safety Precautions

- Make sure to read this entire User Manual carefully before use
- Use the product as instructed and follow all Safety Precautions

**Danger** - Incorrect use will cause serious personal injury, product and property damage.

**Warning** - Incorrect use can cause serious personal injury, product and property damage.

**Caution** - Incorrect use can cause minor personal injury, product and property damage.

### DANGER

 To avoid malfunction, fire or fire caused by heat, make sure you have the correct plug for the country you are in and to connect the plug of the unit into the power outlet properly.

 To avoid malfunction, fire or fire caused by heat, do not use this product in high temperatures. The room temperature should not exceed 40°/104°F.

 To avoid the risk of electric shock or short circuit, do not touch the unit or plug it in with wet hands.

### WARNING

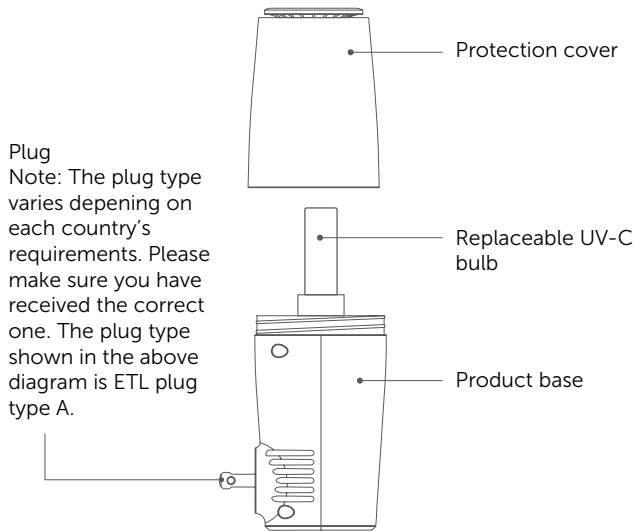

- To avoid malfunction, damage to the product or personal property, fire or fire caused by heat and electric shock, do not use this product outside of the scope specified in this User Manual.
- Do not use this product if there is any physical damage to it.
- Do not use the product in any area where there is a risk of it falling into or being exposed to water.
- Keep the product out of reach of children.

- Do not use this product in the presence of any flammable materials or gases.
- To avoid the risk of electric shock, short circuit or general damage to the product do not immerse it in water and avoid any contact of the product with water.
- The unit must always be used with the top cover.
- Handle the UV-C bulb carefully. Misuse of the product and/or damage to the UV-C bulb can cause eye or skin damage.
- Always make sure the UV-C bulb is assembled properly, especially when the bulb is being replaced. Please refer to bulb replacement instructions in this User Manual.

### CAUTION

- Verify that the voltage indicated on the adapter rating label corresponds with the voltage of your electrical outlet.
- Make sure that the product is not damaged in any way and that the indicator light and temperature are normal before using.
- To avoid malfunction or damage to the product, make sure the product does not fall on hard surfaces or is hit by hard objects.
- Make sure to use this product in accordance with the instructions and requirements in this User Manual.
- This product is intended for indoor use only.
- Always unplug the unit before any maintenance or bulb replacement is done.
- Do not put any object into the opening or block the airflow into the unit.

## Parts Diagram

## Rotating Plug

The plug can be rotated by 180° as shown in Figure a). If your unit has plug type A like the one shown in the above drawing, or any other plug where the positioning of the prongs can only fit into the power outlet in one direction, please make sure it is in the correct position so that it can fit in the power outlet properly and so that the unit is sitting right side up.

Figure a)

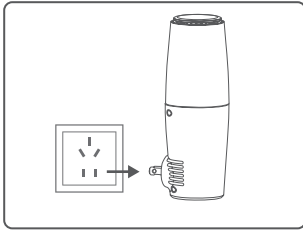

## Instructions for Use

1. Verify that the voltage indicated on the adapter rating label corresponds with the voltage of your electrical outlet.
2. Since the plug can rotate by 180°, make sure it is in the correct position so that it can fit in the power outlet properly and so that the unit is sitting right side up.
3. Plug the unit into the power outlet and make sure the fan and UV light are both working.
4. For optimal results, let the unit run for at least 2 hours.
5. When the UV-C bulb is ready to be replaced, refer to bulb replacement instructions below.

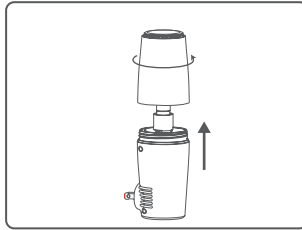

## Troubleshooting Guide

Issue	Solution
Unit does not work	Check the connection of the power and power outlet
	Call customer service
Flashing lights	The UV-C bulb is burnt out. Refer to instructions for bulb replacement in this User Manual
The fan is on without light	

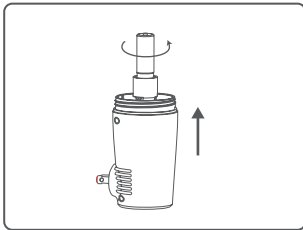

## Steps for Replacing UV-C Bulb

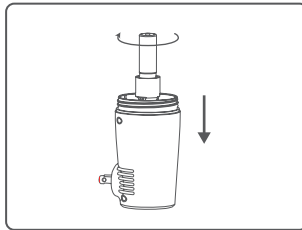

1. Unplug the device from the power outlet.

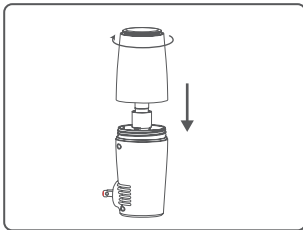

2. Unscrew the protective cover counterclockwise.

3. Unscrew the UV-C bulb counterclockwise.

4. Tighten the new UV-C bulb clockwise.

5. Tighten the protective cover clockwise.

**TIP:** The average lifetime of a UV-C bulb that comes with this product is ~5000 hours and it is suggested that it is replaced approximately every 6 to 8 months, depending on usage. The bulb should also be replaced if there is a significant decrease in brightness or change in color.

Name of product	Zaahn UV Clean & Pure Air Purifier
Model of product	H04
Operating voltage	100-240V~ 50/60Hz
Rated power	4.5W
Operating noise	≤ 60DB
UV illuminant	253nm UV-C bulb

### CORRECT DISPOSAL OF THIS PRODUCT

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmentally safe recycling.
